

UNDERBODY FIRE SUPPRESSION KIT

HYBRID STORED-PRESSURE SYSTEM

This system is suitable for wide range of speciality vehicles:

- Armoured
- Military
- Security
- Humanitarian

Stored Pressure System for Vehicle Underbody (Fuel Cell & Tyres) Protection

Featuring the latest water based suppression technology and twin 3.0 Ltr. stored pressure cylinders, this 8-nozzle system has plentiful capacity to suppress fires on tyres and protect fuel cells as required.

The legendary robustness of all Lifeline and MSW Armoured's components makes this system suitable in the harshest environments providing your vehicle with protection levels that you can rely upon.

The system is operated via manual push button activation with the option of 'Protectowire' automatic temperature sensitive activation.
