

ENGINE BAY FIRE SUPPRESSION KIT WITH AUTOMATED ACTIVATION

3M NOVEC 1230 STORED-PRESSURE SYSTEM

A compact, robust and easy to install fire suppression system, developed for engine bay applications, to suit a broad range of specialty vehicles:

- Armoured
- Military
- Security
- Humanitarian

Stored Pressure Engine Bay Suppression

This highly effective yet cost-effective kit features 3M Novec 1230 extinguishant for the best possible fire knock-down capabilities in enclosed spaces.

The legendary robustness of all Lifeline and MSW Armoured's components makes this system suitable in the harshest environments providing your vehicle with protection levels that you can rely upon.

The system is operated via manual push button activation and the 'Protectowire' automatic temperature sensitive activation.
