

SMALL ENCLOSURE FIRE SUPPRESSION KIT

3M NOVEC 1230 STORED-PRESSURE SYSTEM

Our most compact system is ideally suited to protecting electrical components located within cabinets or small volume (up to 2.5m³) static enclosures.

This 3M Novec 1230 clean agent suppressant based system provides excellent fire knock down and suppression capabilities and leaves no residue when discharged. The system may be operated either manually via the push button or toggle switch, or automatically, using either temperature sensitive Protectowire or UVIR2 detector activation.
